Elakumar Sugatheepan

ASSOCIATE SOFTWARE DEVELOPER CANDIDATE

Jaffna, Sri Lanka | +94 78 420 7426 | sugadevstu@gmail.com

PROFESSIONAL PROFILE

Associate Software Developer candidate with software development internship experience in Java, Spring Boot, REST APIs, MySQL, PostgreSQL, Git and GitHub. Comfortable learning through practical projects and working in version-controlled teams. Experience with React, TypeScript and React Native; recently guided, tested and deployed two browser-based applications.

INTERNSHIP EXPERIENCE

Software Developer Intern — Jan 2026 - Aug 2026

Samuel Gnanam IT Centre (SGIC) | Jaffna | Software Engineering Internship

- Contributed to an industry-style defect-tracking project with peers using Git-based workflows and release practices.
- Worked with Java, Spring Boot, REST APIs, SQL and MySQL; supported React/TypeScript UI updates and API integration.
- Practised Java Servlet development and built a companion React Native client connected to project APIs.

PROJECTS

Voidward Command (formerly SpaceClash) — 2026 - Present

3D Browser Strategy Game | JavaScript | GitHub Pages

- Planned features and guided AI-assisted implementation of a playable browser-based strategy game with base construction, upgrades, fleet management and combat simulations.
- Tested gameplay on desktop and mobile, verified manual save/load functionality and deployed the prototype on GitHub Pages.

FormFit Image — 2026

Photo & Signature Resizer | HTML5, CSS3, JavaScript | Cloudflare Pages

- Planned features and guided AI-assisted implementation of a browser-only photo and signature resizer with custom KB limits, exact dimensions, crop/fit options, previews and JPEG downloads.
- Verified resizing results and deployed on Cloudflare Pages; image processing runs locally in the browser without uploading files.

TECHNICAL SKILLS

Languages & Backend: Java, Spring Boot, Rust, Axum

Web & UI: JavaScript, HTML5, CSS3, React, TypeScript, React Native

Databases: PostgreSQL, MySQL, MongoDB

Version Control: Git, GitHub, GitLab

AI Tools & Concepts: Codex, Prompt Engineering
